

**Elder's Meditation of the Day - March 25**

***"Come forward and join hands  
with us in this great work for the  
Creator."***

-- Traditional Circle of Elders,  
NORTHERN CHEYENNE

The Elders have spent years learning to pray and communicate with the Great Spirit. Their job is to pass this knowledge to the younger people. The Elders have told us we are now in a great time of Healing. The Creator is guiding the younger people to help them figure this out. We must get involved and participate. We should pray and see what it is the Great Spirit wants us to do. We need to sacrifice our time and do what is our mission – to help the people and be of maximum use to the Creator. Every person is needed to accomplish this great Healing.

*Creator, whisper what you want me to do.*
